Road Condition Reports will be updated only as situations change and roads reopen. It is advised that motorists proceed with **extreme caution** traversing all roads listed or not listed above as they may not have been inspected at the time this condition report was released and conditions are constantly changing. Caution is urged if traversing flooded creek crossings as road surfaces may be damaged, submerged matter may not be clearly visible and underlying currents can be swift. Road shoulders of sealed roads generally become soft during heavy rain event and divergence off the bitumen seal is discouraged. Further enquiries may be made by contacting Council on 4658 4111.
